

## Flexible diamond honing stone in cardboard box

6220J standard

### Application:

For sharpening and honing of engraving irons, chisels, bevelled-edge chisels and tool cutting edges and for smoothing cut edges on glass, stone and all hard materials.

### Execution:

- The flex diamond material is glued to a 10 mm thick aluminium plate
- Glued on the underside with plastic buffer

### Advantage:

- Meets highest standards of surface quality, with excellent cutting performance and extraordinary finish
- Non-slip properties on smooth backing due to plastic buffer

### Delivery:

In cardboard box

<b>Art. no.</b>	<b>69359 020</b>
