

Pneumatic safety coupling HSK Safety

Compatible with BILZ HERMETIKUS compressed air system

Application:

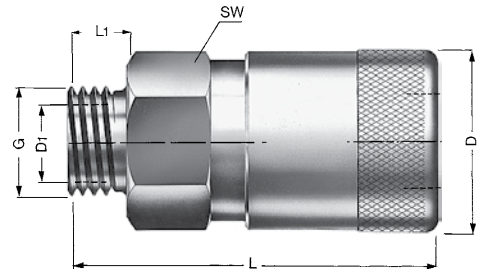

For safe connection of hoses to pneumatic machines and accessories. Also suitable for permanently installed compressed air lines.

Execution:

- The shut-off valve is automatically opened when coupling, and when uncoupling, the flow is automatically cut off
- Corresponds to ISO Standard 4414

Advantage:

- Prevention of whiplash effect when uncoupling, for increased safety at the workplace
- Low pressure losses due to favourably shaped valve in terms of airflow

Art. no.	75105 010
Brand	BILZ
Manufacturer Part Number	6706634
Model	HSK 0
Connection thread	G 1/4 inch
Opening	4 mm
Outer diameter	28 mm
Width across flats	24 mm
Thread length	8 mm
Length	61 mm
Material	Steel
Max. temperature	80 °C
Gross Weight	0.211 kg
Product Group	754
