

Pneumatic safety coupling HSK Safety

Compatible with BILZ HERMETIKUS compressed air system

Application:

For safe connection of hoses to pneumatic machines and accessories. Also suitable for permanently installed compressed air lines.

Execution:

- The shut-off valve is automatically opened when coupling, and when uncoupling, the flow is automatically cut off
- Corresponds to ISO Standard 4414

Advantage:

- Prevention of whiplash effect when uncoupling, for increased safety at the workplace
- Low pressure losses due to favourably shaped valve in terms of airflow

Art. no.	75105 210
Brand	BILZ
Manufacturer Part Number	6706664
Model	HSK 2
Connection thread	G 1/2 inch
Opening	10 mm
Outer diameter	44 mm
Width across flats	36 mm
Thread length	12 mm
Length	82 mm
Material	Steel
Max. temperature	80 °C
Gross Weight	0.528 kg
Product Group	754
