SWITCH DISCONNECTOR FUSE 400A, FRAME SIZE 4, 3-POLE FOR LV HRC FUSE SIZE 1 AND 2 SIDE OPERATING LEFT BASIC UNIT WITHOUT HANDLE FLAT TERMINAL WITHOUT FUSES

| Model   |                                    |  |  |
|---|------------------------------------|--|--|
| Product brand name                              | SENTRON                            |  |  |
| Product designation                             | Switching device                   |  |  |
| Design of the product                           | 3KF switch disconnector with fuses |  |  |
| Design of the operating mechanism               | without                            |  |  |
| Design of handle                                | Without                            |  |  |
| Direction of actuation                          | From left                          |  |  |
| Type of the driving mechanism / motor drive     | No                                 |  |  |
| Number of poles                                 | 3                                  |  |  |
| Size of disconnecting link                      | 2 and 1                            |  |  |
| Size of switch disconnector                     | 4                                  |  |  |
| Size of fuse link                               | NH1, NH2                           |  |  |
| Electrical endurance (switching cycles)         |                                    |  |  |
| • at AC-23 A / at 440 V / at 50/60 Hz           | 3 000                              |  |  |
| • at AC-23 A / at 690 V / at 50/60 Hz           | 2 000                              |  |  |
| • at DC-23 A / at 440 V                         | 1 000                              |  |  |
| I2t value                                       |                                    |  |  |
| • with closed switch / for combination switch + | 1 205 000 A <sup>2</sup> ·s        |  |  |
| fuse / at 500 V / maximum                       |                                    |  |  |
