

Canister wrenches

Application:

These canister wrenches enable you to open and close your canisters in no time at all. The optimal design made of robust stainless steel ensures that canisters can be opened in a simple, convenient and ergonomic way.

All canister wrenches and the set are easy to store thanks to the well-positioned mounting hole and they can be quickly accessed when needed.

Execution:

- Ref. 391 - canister wrench 1 - DIN 45, internal hole dimension 35 mm
- Ref. 392 - canister wrench 2 - DIN 51, internal hole dimension 43 mm
- Ref. 393 - canister wrench 3 - DIN 61, internal hole dimension 48 mm
- Ref. 394 - canister wrench 4 - DIN 71, internal hole dimension 58 mm
- Ref. 395 - canister wrench 5 - DIN 50, internal hole dimension 40.7 mm
- Ref. 390 - canister wrench set - canister wrenches 1-5 as a set
- high-quality stainless steel version
- Hole for storage

Advantage:

- easy opening thanks to optimum lever action
- robust and practical
- Save money by saving time
