

PRODUCT SPECIFICATION

Brand	C.K
Product Range	Hose pipes, connectors and fittings
Catalogue number	As listed
Date	30/03/2012

Range Description

A range of professional quality hose pipes, connectors and fittings

Features

C.K watering systems represent the very best in tough, long lasting water management systems.

Compatible with 1/2" and 3/4" hoses, the range is carefully engineered to be configurable to any application.

SI15132

- Female hose end connector
- Pull release connector

SI15134

- Male hose end connector

SI15133

- Two piece set of 7903 and 7904 (1/2" only)

SI15136

- Double male connector to join two female ends (i.e. 7903 or 7933)

SI15138

- Adjustable spray fitting
- Simple turn adjustment varies the flow from 'off' through spray to hard jet

SI15132

SI15134

SI15133

SI15136

SI15138

SI15139

SI15140 / SI15141 / SI15142

SI15139

- Automatic water stop – connects to all fittings with male ends ie; sprinklers, nozzles, spray guns etc.
- Breaking the connection automatically cuts off the flow of water. This allows different fittings to be interchanged without turning off the tap

SI15140 / SI15141 / SI15142

- Threaded tap connector to fit to taps with male threaded outlets
- 3 sizes available for tap sizes 1/2", 5/8" and 3/4"

SI15143 / SI15144

- Threaded tap connector to fit to taps with female threaded outlets
- 2 sizes available for tap sizes 1/2" and 3/4"

SI15145

- Two way threaded tap connector to fit to 3/4" taps with male threaded outlets
- Outlet for two hoses with separate valves

SI15146 / SI15149

- Smooth tap connector
- Tightens to smooth tap outlets by screw clip
- 2 sizes – 10 to 20mm diameter and 20 to 30mm diameter

SI15150

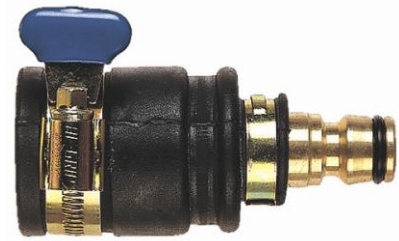

- Comfortable ergonomic design
- Lockable on/off trigger
- Precise, easy to use spray jet adjustment

SI15143 / SI15144

SI15145

SI15146 / SI15149
