

**JBC W440021****Cartridge AWG 36 to 24**

The W440021 is specially designed for stripping high-temperature wire insulations made of thermostable materials such as teflon\*, kapton\*, silicone rubber, etc, from 36 to 24 AWG (0.127 to 0.511 mm)

The self-centering design ensures a perfect tip alignment, allowing to remove the insulation without damaging conductors.

This cartridge range works with WS440 High-Temperature Wire Stripper Tweezers which has an adjustable strip gauge to select the stripping length.

\* Registered Trade Marks of DuPont
