

## Description

The general purpose toroidal transformers with flying leads. They feature dual primary and dual secondary windings.

## Features

- Power rating ranges from 15VA to 1000VA
- Secondary voltages ranges from 2 × 6V AC to 2 × 55V AC
- Dual primary winding for connection in series or parallel only
- Secondary windings can be connected in series or parallel or used independently
- Double insulated primary lead-out
- Flexible lead-out can be trimmed to any length without the need for removal of enamel
- 100% electrical and flash tested

## Circuit Diagram

## Nominal Dimensions/Weight (Mounting Excluded)

Diameter : 140mm  
 Height : 70mm  
 Weight : 4.9kg

## Part Number Table

Description	Part Number
Toroidal Transformer, 625VA, 2 x 40V, Dual Primary	MCTA625/40
