TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

DIN Pin Connector Assemblies, 2.5mm 2-4 Position

Description of Changes

The Industrial and Commercial Transportation business unit of TE Connectivity in China is adding new capacity tooling for the part number(s) listed below for localization with regional customers in the Asia-Pacific region. These PNs are TE proprietary designs, therefore considered catalog/general market product. PPAP and/or sample requests must be submitted within 14 days of PCN submission via ict-ppap-request@te.com or ePPAP system. Submission will not occur without request. If PPAP requested, disposition response is required within 14 days of submit date or it will be considered approved. Product drawing(s) are affected to document the new localization tooling.

Reason for Changes:

Dear Customer, we hereby inform you of this change with new localized tooling to support our regional customers. The tooling does not impact connector performance and will be compliant to existing product specifications. IMPORTANT: No fit, form or function change with existing design features and interchangeable with the existing design. Shipments from current and new tooling configurations may be mixed. IMPORTANT: There is no part revision increase for this change at the sales assembly level.
