

Safety utility knife with pliers handle

TÜV/GS-tested safety

Version:

- With fully automatic blade retraction and long lever
- Housing made of aluminium alloy, rubberised grip zone
- The spring-loaded blade automatically retracts after cutting, even if the lever is still being pressed.
- When not in use, the lever can be locked to prevent the blade accidentally being released
- Easy blade change at the touch of a button
- For right-handed and left-handed use
