

## premium anti-fatigue mat

made from 100% nitrile rubber with closed cells, super-soft

### Application:

heavy duty anti-fatigue mat for industrial use. very soft and comfortable surface, reduces fatigue and ensures better blood circulation.

### Execution:

- nitrile rubber is resistant to chemicals, oils and fats
- upper layer of nitrile rubber vulcanised permanently to bottom layer of nitrile padded rubber
- tripping hazard is prevented by bevelled sides and yellow stripes
- suitable for welding
- slip resistance tested to DIN 13893; average friction coefficient 1.04
- electrical resistance  $10^1$  to  $10^5$  Ohm according to ANSI ESD S7.11
- fire safety tested to BS 4790

### Advantage:

- improves structural alignment and pivot function, reduces irregular joint wear and tear
- up to 50% reduced energy expenditure in the supporting muscles of the legs and back compared to standing on hard floors
- reduces fatigue by promoting easier movement in the leg and calf muscles, which causes increased blood and oxygen circulation
- 5-year guarantee
