

JBC AM120-A

Adjustable Micro Tweezers

It provides a perfect solution for fast and precise SMD rework of chip components and small/medium SOP from PCB assemblies.

The adjusting system guarantees that the cartridges are equally aligned, with vertical and rotatory symmetry.

The Adjustable Micro Tweezers AM120-A works exclusively with DI, DDE, DME and CP-Q stations, requires the Stand AM-SA and works with cartridge range C120
