

Product Change Notification

TRIMMING POTENTIOMETERS

April, 2017

Bourns® Model 3224 and 3214 5-Turn Trimpot® Trimming Potentiometers

Packaging Reel Change

Bourns will be updating the packaging reel for the 4 mm [Model 3224](#) and the 4 mm [Model 3214](#) Trimpot® Trimming Potentiometers. No change is being made to the Model 3224 or Model 3214 products themselves. The change in packaging reels will provide standardization of the packaging for all 4 mm styles. These models, produced in Costa Rica, will begin utilizing reel packaging for styles J, G, W, and X from the current RE 7" reel to the RJ 7" reel. The RJ 7" reel is already being used for the same product produced in Taiwan. The two reel types are similar except for different cutout shapes as shown in the photos below. The reels will continue to be shipped in a protective cardboard box.

Current RE 7" Reel

New RJ 7" Reel

Affected part numbers are listed on page 2.

Implementation dates are as follows:

Deliveries utilizing RJ 7" reels will begin: May, 2017

First date code using the RJ 7" reels: 1718

If you have any questions or need additional information, please feel free to contact [Customer Service/ Inside Sales](#).
