

Cemented carbide keyhole saws, straight cut

Application:

For sawing circular holes in steel, plastics, aluminium, zinc, plasterboard, wood and light-weight construction boards.

Execution:

- With ejector spring and replaceable centring drill
- Cemented carbide blades can be repeatedly ground
- Can be used on manual and pillar drills (without automatic feed)
- Stainless steel sheeting up to 2 mm
- Non-alloy steels up to 4 mm
- Maximum cutting depth: 12 mm

Art. no.	53842 220
Brand	ALFRA
Manufacturer Part Number	0600220
Diameter	22 mm
Gross Weight	0.119 kg
Product Group	529
