### DVD LABELS

#### SuperSize

- DVD Labels with unique safety perforation: Labels use a special film material resistant to temperature changes for optimum performance
- With the practical, removable wings you can easily centre labels
- SuperSize DVD labels cover the DVD surface including the transparent middle

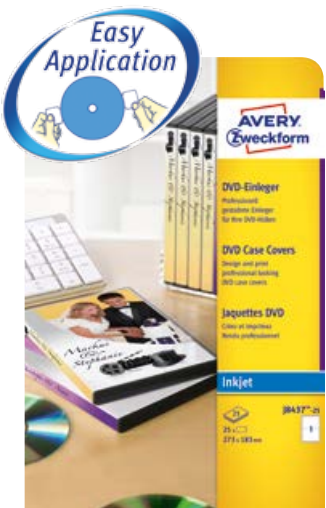

Playing equipment and blanks used for DVD technology are generally more sensitive than CD technology. The data tracks are closer together and so the laser has to read more accurately. Avery Zweckform therefore recommends DVD-optimised labels.

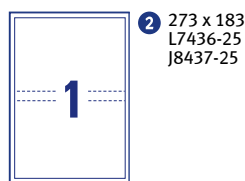

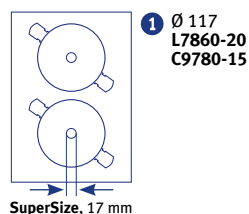

| Art No.                    | Format mm (B x H) | Description             | Colour | Labels/Pack | A4Sheet/Pack | Printers I L K CL |
|----------------------------|-------------------|-------------------------|--------|-------------|--------------|-------------------|
