RS PRO Tip Cleaner and cleaning ball

136-8299(Tip Cleaner)

136-8300(Cleaning ball)

Features:

For gentle fine clean of soldering tips.

The soldering tip is cleaned by wiping or turning it in the metal wool. Subsequently, a fine solder layer will remain which prevents fast oxidation of the soldering tip, and represents a considerable advantage compared to standard sponge cleaning.

Cleaning ball material: brass

Caution: keep the product away from children. Only use the metal wool to clean soldering tips. Remove the soldering tip from the metal wool directly after cleaning.
