## VBA-2E-G11-I/U/PT100-F

G11 analog module 2 analog inputs

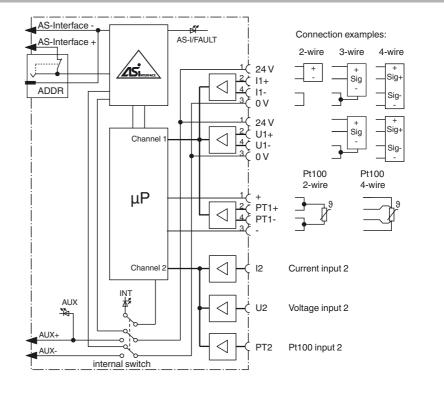

### Features

- Addressing jack ٠
- Function display for bus, internal and • external sensor power supply, inputs
- Supply for inputs from AS-Interface or auxiliary voltage
- Degree of protection IP68 / IP69K •
- Accuracy ± 0.1 % •
- Integrated shielding •
- Channel-specific input monitoring •
- Inputs for current, voltage or Pt100 • temperature sensor

VBA-2E-G11-I/U/PT100-F

# **Function**

VBA-2E-G11-I/U/PT100-\* analog The module has two analog inputs which can be current input (4 mA to 20 mA), voltage input (0 to 10 V) or resistance thermometer input (-200 to 850 °C).

The power supply to the measurement value generators takes place depending on the position of the internal slide switch, via AS-Interface or through auxiliary voltage. The choice of input supply is displayed via the INT/EXT LED.

Measured value conversion and data transfer is provided asynchronously according to the AS-Interface profile 7.3. The resolution of the analog values is 16 bit with a value range of 4000 to 20000 (current input), 0 to 10000 (voltage input) and - 200 °C to 850 °C (resistance thermometer input). Network interference can be eliminated with a configurable filter (50 Hz/60 Hz) in the A/D converter.

#### Note:

An overload of the internal input supply is also reported to the AS-Interface master via the 'peripheral fault' function. Communication via the AS-Interface continues.

#### Notes

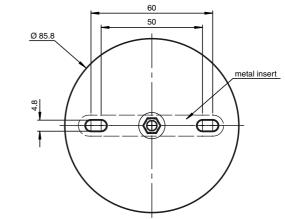

Do not connect inputs and outputs, which are supplied via the module from AS-interface or via auxiliary power, with power supply and signal circuits with external potentials.

#### **Connecting instruction**

Use shielded cable to connect the sensors.

#### Mounting instructions

Screw the device onto a level mounting surface using two M4 attachment screws. The functional earth of the M12 round connectors is connected with the metal insert in the base via the tightened central screw. Make sure that the metal insert is connected to protective earth via the mounting screws. The mounting screws are not included.

Screw a blind plug onto spare connections to ensure the protection category.

#### Shutdown 2nd channel

When delivered, the PT100 input PT2 is bridged to turn off channel 2. Remove the bridge to use channel 1 & 2.
