

CC506 1.5m Round Folding Table

Instruction manual

Model:
CC506

Safety Tips

- Do not overload the table top causing it to bend. Max. Load Weight (evenly spread): 125 kgs.
- Do not place heavy weights on the table edge.
- Do not stand on the table top.
- Always ensure the table is securely closed when folding up and storing/transporting.
- Store table on its end when not in use.

Assembly

1. Place the folding table upside down on a flat surface.
2. Unfold the table [1].
3. Remove both bars from the underside of the table [2].
4. Free the support pin [3] from the underside of the table, push it through the central support [4] and press back into the underside of the table [5]. Repeat for the second and third pins.

(i) NOTE: Whether in the open or closed position, ensure the support pin handles are securely located back in the underside of the table to stop them from working free.

5. Lift up the legs [6]
6. Turn the table upright.
7. Slot the bars into the legs [7].

(i) NOTE: Closing the table is a reverse of the above procedure. Ensure the handle is outside the table when closing for ease of transportation.
