**Tool set for the professional window builder**

Compact Wera screwdriving tool set with the 35 most important tools for window construction. Socket wrench and bit assortment in premium Wera quality, attuned to universal window construction applications. With 2 bit hand holders and 1 bit ratchet (which can also be used for socket wrench inserts, if used with an adaptor).

**Flexible shaft**

Screwdrive around the corner with the 393 S screwdriver. The flexible shaft allows to reach fixing screws in unfavourable positions. The ideal tool for screwdriving situations that are difficult to reach.

**Slim bit holder**

The particularly slim bit holder allows working in very tight work spaces.

**The Zyklop Mini 1**

The Zyklop Mini 1 mini ratchet allows particularly quick screwdriving, even in narrow work situations. With direkt bit mounting. With the Wera 870/1 adapter (1/4"-hexagon to 1/4"-square head), 1/4" socket wrenches can also be operated.

**Manual and machine sockets**

The manual and machine sockets can be used both for hand and power tools use (non-impact). Users need just one socket set for all applications.

**L-keys with retaining function for hexagon socket screws**

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to set

**Holding function for recessed TORX® screws**

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Acument Intellectual Properties specifications are securely held on the tool!

**Automatically and continuously self-setting**

With its automatically and continuously gripping parallel jaws the Joker spanner 6004 covers all dimensions in the respective field of application. The tool automatically finds the required size when placed on the bolt or screw, no setting required.
