

Lever crimping tool for wire end ferrules 0.14-6 mm²

PZ 6 roto ADJ trapezoid crimping tool with adjustable grab width

Weidmüller 

Application:

For crimping wire end ferrules with or without plastic collars.

Execution:

- Rotating crimp die with trapezoid crimp for adapting to different installation situations
- Only one die required for the entire area
- Adjustable grab widths - enables optimal working even for smaller hand sizes
- Opening angle can be reduced by 20°

Advantage:

- Force-stop function guarantees high-quality crimping, unlocking option in the event of incorrect operation

Art. no.	53510 018
Brand	WEIDMUELLER
Manufacturer Part Number	2831380000
Model	PZ 6 ROTO ADJ
Length	201 mm
Suitable for min./max. diameter	0.14-6 mm
Material of handle	2-component plastic
Gross Weight	0.526 kg
Product Group	543
