

FEATURES

- Supplied in a pack of 100
- Available in a wide range of sizes
- They offer an easy to use
- Self-locking mechanism for quick installation and fastening
- Blue colour for easy visual identification
- Metal content ties have good corrosion resistance

RS PRO Blue PA66MP Metal Detectable Cable Tie, 380mm x 7.6mm

RS Stock No.: 172- 1768

RS Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Product Description

Introducing the range of RS PRO metal detectable cable ties. These cable ties have a unique blue colour that meets industry regulations so that it is easily identifiable to reduce contamination in production environments. In addition to this, the cable tie offers total diffusion of metal powder particles to ensure that every single part of the cable tie is detectable, even if it has been trimmed to size. The RS PRO metal detectable cable tie is ideal for use when installing cabling in factories, industrial and manufacturing plants, where there is a high risk of contamination

General Specifications

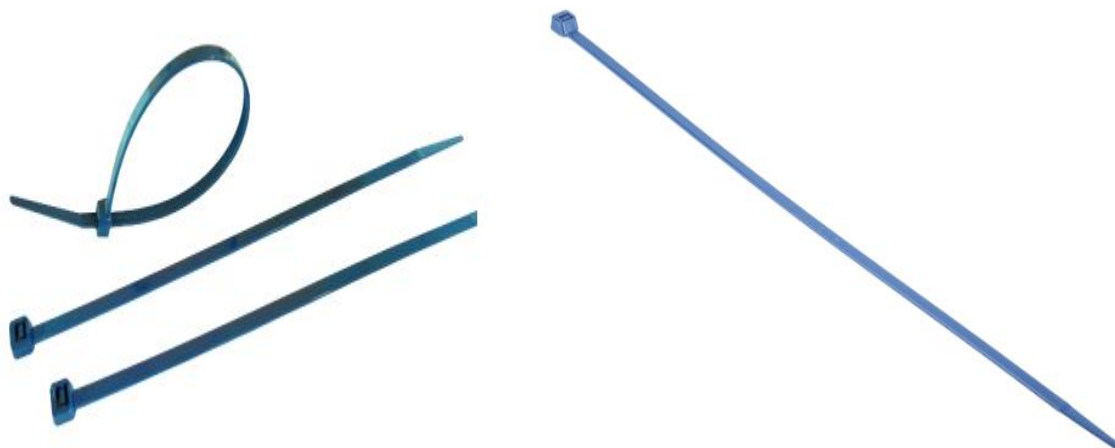

Type	Metal Detectable
Colour	Blue
Material	PA66MP
Application	Food manufacture, Pharmaceutical, Chemical processing
Quantity	100

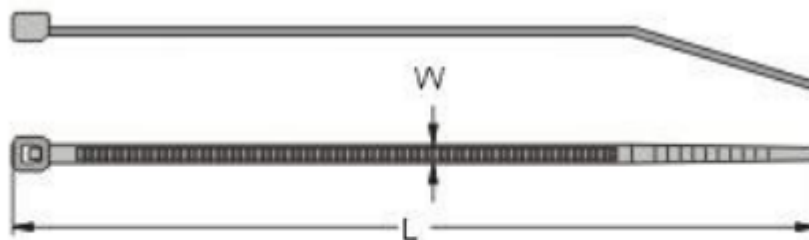

Mechanical Specifications

Length	380mm
Width	7.6mm
Maximum Bundle Strength	105mm

Approvals

Standards Met	RoHS compliant, UL94 HB standards
