

composite pipe shears DENAKUT

with integrated corrugated pipe cutter in the handle

ZENTEN

Application:

for cutting composite piping and corrugated pipes

Execution:

- magnesium die-cast body
- twist and cut system: 4 needle bearing guide rollers make it easy to rotate the pipe when cutting
- one-handed closure system
- blade with optimised cutting geometry and PTFE coating
- steel bearing axle with needle roller bearings
- with 4 x 3-edged blades on the inside of the handle, protective corrugated pipes from 8 to 35 mm can be cut without damaging the inner tube
- ergonomic two-component handles with anti-impact absorption

Advantage:

- easier, faster and more precise cutting with minimal application of force
