

Slotted, Phillips, and Robertson Screwdrivers

Jonard Slotted, Phillips, and Robertson Screwdrivers are made of special alloy steel for exceptional strength, long life and corrosion prevention.

The slotted screwdrivers have cabinet tips to allow easy access where space is limited, the Phillips and Robertson screwdrivers are precision machined for that perfect fit. Soft rubber handles offer comfort and greater torque. The end of the handle is marked to identify the tool's size, and the tips are magnetic. Meets applicable ASME/ANSI specifications.
