## **DATASHEET - M22-D-R-K10-BVP**

Pushbutton, RMQ-Titan, flush, momentary, 1 NO, red, Blister pack for hanging  $\,$ 

Part no. M22-D-R-K10-BVP Catalog No. 110935

**Alternate Catalog** 

M22-D-R-K10-BVPQ

No.

**EL-Nummer** 4356258

(Norway)

# **Delivery program**

| Product range              |   | RMQ-Titan  |

# **Design verification as per IEC/EN 61439**

| besign vermoution as per 120/214 01-103  |                   |    |  |
|--|-------------------|----|--|
| Technical data for design verification   |                   |    |  |
| Rated operational current for specified heat dissipation   | In                | Α  | 6  |
| Heat dissipation per pole, current-dependent   | $P_{\text{vid}}$  | W  | 0.11   |
| Equipment heat dissipation, current-dependent  | P <sub>vid</sub>  | W  | 0  |
| Static heat dissipation, non-current-dependent   | $P_{vs}$          | W  | 0  |
| Heat dissipation capacity  | P <sub>diss</sub> | W  | 0  |
| Operating ambient temperature min.   |                   | °C | -25  |
| Operating ambient temperature max.   |                   | °C | 70   |
| IEC/EN 61439 design verification   |                   |    |  |
| 10.2 Strength of materials and parts   |                   |    |  |
| 10.2.2 Corrosion resistance  |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.1 Verification of thermal stability of enclosures   |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.2 Verification of resistance of insulating materials to normal heat   |                   |    | Meets the product standard's requirements.                         |
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects |                   |    | Meets the product standard's requirements.                         |
| 10.2.4 Resistance to ultra-violet (UV) radiation   |                   |    | Please enquire   |
| 10.2.5 Lifting   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.6 Mechanical impact   |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
| 10.2.7 Inscriptions  |                   |    | Meets the product standard's requirements.                         |
| 10.3 Degree of protection of ASSEMBLIES  |                   |    | Does not apply, since the entire switchgear needs to be evaluated. |
|  |                   |    |  |

| 10.4 Clearances and creepage distances                   | Meets the product standard's requirements.   |
|--|--|
| 10.5 Protection against electric shock                   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections        | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors                 | Is the panel builder's responsibility.   |
| 10.9 Insulation properties                               |  |
| 10.9.2 Power-frequency electric strength                 | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage                         | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material | Is the panel builder's responsibility.   |
| 10.10 Temperature rise                                   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating                               | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.12 Electromagnetic compatibility                      | Is the panel builder's responsibility. The specifications for the switchgear must be observed.                                   |
| 10.13 Mechanical function                                | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## **Technical data ETIM 7.0**

Low-voltage industrial components (EG000017) / Front element for push button (EC000221)

Electric engineering, automation, process control engineering / Low-voltage switch technology / Command and alarm device / Front element for push-button actuators (ecl@ss10.0.1-27-37-12-10 [AKF028014])

| Colour button                           |    | Red     |
|---|----|---------|
| Number of command positions             |    | 1       |
| Construction type lens                  |    | Round   |
| Hole diameter                           | mm | 22.5    |
| Width opening                           | mm | 0       |
| Height opening                          | mm | 0       |
| Type of button                          |    | Flat    |
| Suitable for illumination               |    | No      |
| With protective cover                   |    | No      |
| Labelled                                |    | No      |
| Switching function latching             |    | No      |
| Spring-return                           |    | Yes     |
| With front ring                         |    | Yes     |
| Material front ring                     |    | Plastic |
| Colour front ring                       |    | Chrome  |
| Degree of protection (IP), front side   |    | IP67    |
| Degree of protection (NEMA), front side |    | 4X      |
