

## Infection protection frame

### Application:

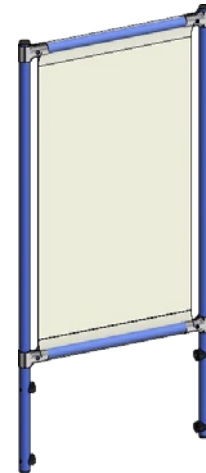

The fetra infection protection frame offers a flexible means of installing a mobile protective barrier in the required positions. The infection protection frames are available as a retrofittable mounting kit for a wide range of fetra transport devices.

### Execution:

- Frame construction made of blue, powder-coated steel tubes that are simply screwed together
- transparent PVC film (650 g/m<sup>2</sup>), crystal-clear, hemstitch along the top and bottom
- The frame construction is a simple-to-mount design for self installation using plastic clamps and can therefore also be retrofitted.
- The height is adjustable, e.g. for creating a pass-through space below the barrier

### Advantage:

- With this barrier, employees are better protected against infections transmitted via droplets, such as Coronavirus.

<b>Art. no.</b>	<b>50268 026</b>
<b>Suitable for model</b>	2448, 2449
<b>Brand</b>	FETRA
<b>Manufacturer Part Number</b>	5948
<b>Length x width x height</b>	571 x 49 x 1195 mm
<b>Height 2</b>	900 mm
<b>Gross Weight</b>	1.200 kg
<b>Product Group</b>	5AB
