

Automatic Self Adjust Cable Strip/Cut

Features

- Features a self-adjusting and automatic grasp with the optimal tension functions
- Works on the single or multi-stranded cross-section 0.2-6 mm² (24-10 AWG) cables
- Perfect for stripping insulated thick or thin wall without damaging to inner conductor
- Adjustable sliding stop with scale helps to set a specific stripping length fast and precisely
- Integrated lever-action side cutter makes a clean cut for maximum 4 mm² cables
- Front-loaded stripping allows better access to hard-to-reach spots
- Push-button lock mechanism for easy storage and safety in closed position
- Ergonomic handle design reduces hand fatigue with greater comfort

Specification

Length	178 mm
Weight	159 g
Material	Polyamide

Art. Nr.
RND 550-00540
