

## Active measurement adapter case MA 4

Testing compliant with standards DIN VDE 0701-0702, DIN EN 62353, DIN EN 60974-4 and DGUV Regulation 3

**BENNING**

### Application:

Measurement adapter for active and passive testing of 1 and 3-phase equipment up to 32 A

### Version:

- Testing compliant with standards DIN VDE 0701-0702, DIN EN 62353, DIN EN 60974-4 and DGUV Regulation 3
- Testing of 1-phase (230 V, 16 A) and 3-phase (400 V, 16 A + 32 A) equipment with CEE connection
- Differential current measurement on 3-phase devices and functioning machines
- Safety and functional testing of CEE extension leads
- Robust and watertight transport case (IP 67)
- 7 status LEDs for evaluating the cable function test

### Advantage:

- Can be used universally for any 1-phase appliance tester that switches on mains voltage
- The differential current transformer integrated in the BENNING MA 4 allows active testing of 3-phase test specimens under mains voltage and has the additional advantage that the test specimen does not have to be installed in isolation.
