

Multimar universal measuring device

Mahr

Application:

For universal measurements of diverse tasks, e.g. external and internal measurement of bores, threads, tothing, recesses, grooves etc.

Execution:

- Direction of the measuring force can be changed for measuring external or internal dimensions
- Integral measuring force spring to ensure a constant measuring force
- The movable measuring arm holder is housed in a high-precision ball-bearing guide to minimise play and friction
- Strong, ground, hard chrome-plated column
- Mount for dial gauges and precision pointers, \varnothing 8 mm

Delivery:

Operating instructions, assembly and storage blocks, wooden box (without display unit, gauge slides)

Art. no.	31900 220
Brand	MAHR
Manufacturer Part Number	4503003
Min./max. external length measuring range	230-585 mm
Min./max internal length measuring range	260-615 mm
Measuring span	12 mm
Measurement force	5 N
Gross Weight	8.000 kg
Product Group	305

EAN
