

All-steel screw clamps, 100–1250 mm clamping width

Made of drawn, bare steel, 2-C handle

Application:

For sprung and elastic clamping of a range of workpieces.

Advantage:

- Optimised blade profile for 20% more clamping force per spindle revolution
- Force transmitted to the sliding bar in a straight line for optimum safety

Art. no.	51109 030
Brand	BESSEY
Manufacturer Part Number	GZ30-2K
Max. clamping width	300 mm
Overhang	140 mm
Rail cross-section L x W	28 x 11 mm
Material of handle	2-component plastic
Gross Weight	1.997 kg
Product Group	517

EAN

4008 158034 126
