

# Defender<sup>Series</sup> for iPod Touch 5<sup>th</sup> and 6<sup>th</sup> Generation

## Slim and Chic, Meets Rough and Rugged /

An exceptional list of features, including a thinner and lighter aluminum body, a larger screen and an enhanced camera device. Really, it's the closest thing to an iPhone, without being an iPhone. Just like the iPod Touch is not just an mp3 player, the Defender Series is not just a case — it's a multi-layer protective solution for your most prized possession. Its robust, three-layer design withstands dust, drops and bumps, making the Defender Series the industry leader for its protective qualities. From a drop onto the asphalt to a toss into a backpack full of books, we've thought of all of those "worst case scenarios" when designing the Defender Series.

## Features /

- Rugged protection made for adventure
