

SMT 850 plus combination abrasive flap disc

Fibre glass backing, synthetic resin bonding, sloped design

Application:

For modifying surface appearance, removing and finishing TIG welding seams on stainless steel and for light deburring work (only coarse version).

Advantage:

- Material removal and finishing in one step
- Reduction in number of work steps and reduced machining times
- Cost reduction

Art. no.	76191 015
Brand	KLINGSPOR
Manufacturer Part Number	3 12557
Type description	SMT 850 PLUS
Number of pieces per packet	5 PCS
Washer diameter	115 mm
Bore diameter	22.23 mm
Surface structure	Medium
Backing material	Fibreglass plate
Grid size	80
Max. rotation speed	7000 rpm
Material to be processed	Stainless steel
Gross Weight	0.122 kg
Product Group	6DB

EAN

4014855181681
