TE Connectivity

Product Change Notification: PCN-21-119260

PCN Date: 29-OCT-21

Customer: TTI Inc(0000139702)

Location: WORLDWIDE

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Add pink label on gray wire on following products as per NEC standards: Assembly Rotating Dimming Receptacle (49.22 mm)

Description of Changes

As per the recent update by National Electric Code (NEC) Article 410.69, the color coding will change to a new standard, using a pink wire instead of the gray wire. TE will provide gray wires with the pink label for marking purposes under the reidentification guidelines of NEC 410.69. As TE depletes gray wire inventory, a permanent switch to pink conductors will be completed. The transition period will be from December 2021 to June 2022. As TE continues to work on reduction of waste, the clear shipping caps and note 9 of customer drawing will be eliminated at the same time. (Not applicable for 2332966).

Reason for Changes:

As per the recent update by National Electric Code (NEC) Article 410.69, the color coding will change to a new standard, using a pink wire instead of the gray wire.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	03-JAN-2022
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	30-JUN-2022

Part Number(s) being Modified:

Part Number	Part Discontinued per PCN	Customer Drawing	Customer Part Number	Alias Part Number(s)	Substitute Part Number	Substitute Alias Part Number(s)	Description Of Difference
