Millimar module N 1704 I/O
input and output module

Application:

flexibly combinable bus modules, for connection to PC with with Millimar Cockpit evaluation and configuration software installed, using supplied USB cable.

Execution:

- RS485 data interface
- 4 control inputs (10-30 V)
- 4 control outputs (10-30 V)
- power consumption: 70 mA

Advantage:

- powerful bus system for solving individual measuring tasks
- maximum theoretical bus data rate of 4189 values/s (depending on the number of connected channels)

Art. no.	39957 130
Brand	MAHR
Manufacturer Part Number	5331134
Model	N 1704 I/O
Interface input	RS485
Included in delivery	Operating instructions
Number of rechargeable batteries/batteries	0
Gross Weight	0.200 kg
Product Group	306

EAN

4059192061333
