

Air conditioning measuring instrument in set

Model testo 440 delta P flow combination set II

Application:

For measuring parameters relevant to air conditioning in combination with up to three sensors.

Execution:

- including differential pressure sensor
- 1x 46210740 impeller sensor dia. 100 mm with temperature sensor and Bluetooth handle
- 1x 46210705 impeller sensor head dia. 16 mm including temperature sensor
- 1x 46210655 humidity temperature sensor head
- 1x extendible telescope (length up to 1 m) for flow sensors
- 1x combination case for testo 440 and multiple sensors

Advantage:

- automatic sensor detection
- easy operation thanks to structured menu navigation
- wireless measurement with Bluetooth sensors
- USB interface for CSV file export
- Graphic display for displaying three readings

Delivery:

Measuring instrument including sensor(s), 3x AA Mignon batteries, USB cable and calibration log (testo 440)

Art. no.	46210 515
Brand	TESTO
Manufacturer Part Number	0563 4410
Gross Weight	2.485 kg
Product Group	4CF

EAN
