

230v AC Volt Stick with Buzzer

➤ Volt Stick SOUND Non-contact Voltage Tester with Sounder, 230v AC

The **Volt Stick SOUND** is a 230v AC voltage tester featuring both red LED and Buzzer indicators, for safely checking for the presence of an AC voltage, without making any disconnections in cables, wall sockets, fuses, circuit breakers, junction boxes, etc.

The Volt Stick SOUND features a detection buzzer for even greater clarification. Also ideal for 'detection 'round corners', in bright daylight and in awkward out of sight areas.

This model's high visibility, bright green tube is ideal for ease of identification if dropped or buried in the toolbox!

Features:

- Features built-in buzzer
- Locates breaks in cables
- Detects blown fuses inside plugs or fuse holders
- Distinguishes between live and neutral wires in both single and three-phase supplies
- Identifies voltage-carrying cables in junction boxes
- Identifies faulty in-line switches
- Locates defective in-series light bulbs
- Voltage indicator with safety handguard to avoid unintentional contact with live conductors
- Fully approved to IEC 61010-1 CATIII 1000VAC and CE

Applications:

- Visual and audible indicators ideal for high sunlight areas and 'indication 'round corners'
- 230v AC Mains testing
- Finds breaks in cables
- Polarity checking

Live Electrical Cable

Live Fuse Identification

Polarity Identification

Attribute	Value
Voltage range	200~1000v AC
Sensitivity	Functions @ 4mm distance from 2.5mm ² conductor carrying 230v AC
Response Time	Immediate
Intrinsically Safe	No
Power Requirements	2 x Standard AAA alkaline batteries (supplied)
Relative Humidity	80% @ 30°C, 50% @ 40°C
Operating Temperatures	-20° ~ +50°C
Overvoltage	CATIII, 1000v AC
Dimensions	145(L) x 18(Ø)mm
Weight (Net)	0.04kg
