**VAA-2E1A-G10-SAJ/EA2J-2M-V1-G**

G10 safety module  
2 safety inputs and  
1 standard electronic output

**Features**

- Connection of contact safety switches, e.g. EMERGENCY STOP button
- Applications up to PL<sub>e</sub>
- Modular safety solution
- Ultra-compact enclosure
- Degree of protection IP67

**Technical data****General specifications**

Slave type	Safety-Slave
AS-Interface specification	V3.0
Required master specification	≥ V2.1
UL File Number	E223772

**Indicators/operating means**

LED FLT	error display; LED red red: communication error or address is 0
LED AS-i	AS-Interface voltage; green LED green: voltage OK flashing green: address 0
LED IN	switching state (input); 2 LED yellow
LED OUT	Switching state (output); LED yellow

**Electrical specifications**

Rated operating voltage	$U_e$	26.5 ... 31.6 V from AS-Interface (PELV)
Rated operating current	$I_e$	≤ 90 mA
Protection class		III
Surge protection		overvoltage category III
Rated insulation voltage		32 V
Pulse withstand voltage		0.8 kV

**Input**

Number/Type	2 safety-related inputs for mechanical contacts, crossed-circuit monitored: 2 single-channel contacts: up to category 2/PL c to ISO 13849-1 or 1 2-channel contact: up to category 4/PL e to ISO 13849-1
Supply	from AS-Interface
Voltage	20 ... 30 V DC pulsed
Current	input current limited ≤ 15 mA, short-circuit protected

**Output**

Number/Type	1 conventional electronic output, PNP
Supply	from AS-Interface
Current	50 mA , short-circuit/overload protected
Voltage	( $U_{ASI} - 7.0 V$ ) ≤ $U_{OUT}$ ≤ $U_{ASI}$

Pollution Degree	3

**Mechanical specifications**

Contact elements	spring-loaded contact socket
Degree of protection	IP67 This protection class is achieved by using the AS-Interface flat cable VAZ-FK-S-YE
Connection	AS-Interface: AS-Interface flat cable Inputs/outputs: M12 x 1 socket, 8-pin
Material	
Contacts	CuSn / Au
Contact surface	Au
Housing	PBT
Body	TPU, black

**Function**

The VAA-2E1A-G10-SAJ/EA2J-\*M-V1-G is an AS-Interface safety module with 2 safety-related inputs and one conventional output. A two-channel mechanical switch or a single channel mechanical switch each can be connected to the two safety-related inputs. The output is a conventional electronic non-safety-related output, which can be loaded with 50 mA.

The module is suitable for remote connection of switches in very limited space. The one-piece housing provides a degree of protection of IP67 .

The connection to the AS-Interface cable is achieved by means of insulation piercing method of the inserted flat cables. The inputs and the output are connected via an 8-pin M12 socket.

To display the current switching state, there is a LED for each channel mounted on top of the module. A LED indicating the AS-Interface communication and the address 0 of the module is also available. If a communication error occurs, the outputs are switched off (only at P0 = 1).

The module can be used up to Category 4/PL e according to ISO 13849-1, SIL 3 according to EN 62061.

If two single-channel switches are connected, the module can be used up to Category 2/PL c according to ISO 13849-1, SIL 1 according to EN 62061.

**Safety Instructions**

If a single-channel switch is used, the module is suitable for use up to category 2/PL c in accordance with ISO 13849-1, or SIL 1 in accordance with EN/IEC 62061. Only tested and certified power supplies with safe isolation may be used to supply power. These power supplies must have PELV voltage in accordance with EN 50295 / IEC 62026-2, and a minimum MTBF of 50 years. The power supplies are designed to exclude a short circuit between the primary and secondary sides.

**Mounting Instructions**

You may screw the device onto a level mounting surface using two M4 attachment screws. The attachment screws are not included.

Lay all cables in accordance with EN/IEC 60204.

Do not use the outputs for safety-related functions.

Do not connect inputs and outputs, which are supplied via the module from AS-interface or via auxiliary power, with power supply and signal circuits with external potentials.

See the manual for a guide to the intended use.
