TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

110 Series Fastin Faston Tab

Description of Changes

The following parts are currently plated at TE Kurim, CZ. This location will not change for this process. They are both plated from stamped PN 928930-3. This will be stamped in TE Collegno on a new die. It was previously stamped on a die at a German supplier. That change has already been documented on P-20-018471

Reason for Changes:

Dear Customer, as a result of our continuous strive for improving our processes, we hereby inform you about a transfer of tools and/or processes. The transfer is executed by following a strict transfer procedure, which guarantees no negative influence on quality, ability to supply and form-fit-function of the concerned products. The new manufacturing location is under a certified quality management system according to the standard industry requirements. An internal release based on our specifications will be executed before any parts will be delivered, which guarantees the performance.
