

multiple clamping stations K10.2

ATORN®

Version

- unlocks hydraulically
- Repeat accuracy < 0.005 mm
- unhardened steel
- The clamping systems are already equipped with mounting holes (for the most common table grooves sizes 63, 100 and 125 mm) and positioning aids. The clamping stations are ready for immediate commissioning. Connections are already bolted.
- the clamping station with purge has 2 connections: 1 x open hydraulically, 1 x pneum. purge
- the clamping station is suitable for table groove sizes 63, 100 and 125 mm

Advantage

- low overall height of only 36 mm

Art. No.	28981 502
Type	2x clamping station
Retraction force/closing force	2 x 10 kN
Retaining force	25 kN
Weight	14 kg

EAN-Code
