USB3.1 Type C Plug to USB3.0 Type A x 3 + HDMI Receptacle Hub

multicompPRO

Overview

This is a USB-C to USB 3.0X3 and HDMI hub. The USB 3.0 port allows you to connect a USB device to the host computer or another hub, and the HDMI port allows you to connect an extra monitor so that you can watch videos or slideshows on the big screen. It can work on Apple new Macbook Pro or Google new Chromebook Pixel and other USB-C supported devices.

Features

• Support USB-C input and HDMI, USB3.0 output
• Support USB 3.0 super speed (5Gbps) transmission, downward compatible with USB2.0
• Max 900mA per USB port (when one port is connected), total max 900mA for three USB ports
• USB 3.0 port supports to charge and transmit data for the USB device simultaneously
• Support per lane data rates of 5.4Gbps (HBR2), 2.7Gbps (HBR) and 1.62Gbps (RBR)
• Support HDMI resolution up to 4Kx2K@30Hz, 9Gbps bandwidth
