

Meets ANSI/ESD S20.20 tested per ANSI/ESD S1.1 and ESD TR53

Made from stainless steel, the durable premium performance metal wristband creates a reliable electrical contact to the user's wrist. The metal expansion bands are used for durability and comfort. Each link is covered with an insulative plastic cap. Use with single-wire coil cord with 4mm female socket snap (not included).

Properties	Typical Value	
Metal	Stainless Steel	
Elasticity	Expansion 1.5:1	
Contact	360 degrees around wrist	
Color	Black	
Snap	4mm	
Wrist Strap System (when worn)	< 3.5 x 10 ⁷ ohms	
Resistance Interior	< 1 x 10 ⁵ ohms	
Resistance Exterior	> 1 x 10 ⁷ ohms	
Band Circumference	Min.	Max.
Small	5.75"	6.25"
Medium	6.63"	7.13"
Large	7.25"	7.75"
