

# DC Motor Controller PWM Module

## Descriptions:

This is a DC motor controller PWM, adjustable speed digital display encoder duty ratio frequency ZK-MG.

## Specifications:

- Model: ZK-MG
- Material: Plastic+Metal
- Color: Black
- Working voltage: DC5V~30V, input anti-reverse connection protection
- Rated current: 5A maximum current 15A
- Maximum power: 150W
- Working frequency: 1KHz~99KHz adjustable, 1KHz step, default frequency of 20KHz, accuracy of about 1%
- Duty cycle: 0-100%, 1% step
- Product size: 76x43x26mm/2.96x1.68x1.01in
- Product weight: 41g/1.44oz
