

PRODUCT CHANGE NOTIFICATION

MAGNETICS

Bourns® Model SRR1050A, SRR1050HA, SRR1040, SRR8030, and SRR8045 Series Shielded Power Inductors

Relocation of Manufacturing Plant

Riverside California – April 28, 2023 – Effective May 20, 2023, manufacturing of the [Model SRR1050A](#), [SRR1050HA](#), SRR1040, SRR8030, and SRR8045 Series Shielded Power Inductors will be relocated to a higher capacity manufacturing facility to accommodate increased production demands.

There will be no product design, material or manufacturing process changes as a result of the manufacturing plant relocation.

The form, fit, function, quality, reliability and country of origin of these inductors will not change. The production lead time of these inductors remains the same. Traceability will be maintained through lot code and date code.

A list of affected part numbers is included below.

Samples built at the new manufacturing site are available upon request. Bourns recommends that customers test the affected part number(s) in their specific applications for verification of satisfactory performance.

Implementation dates are as follows:

First date code for products from the new location: **2320**

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
