

POLICAP® abrasive caps

Cylindrical, normal corundum abrasive grain

Application:

For universal use on steel materials (hardened, tempered, unhardened). Specially developed for specific tasks such as tool and mould making as well as related repair work. Also suitable for processing plastics, wood and filler. ■ Levelling ■ Surface machining ■ Staged finishing

Advantage:

- Easy tool change
- The abrasive caps and sleeves are reliably retained on the holder by extending the holder when in use
- Excellent shape stability and fine grinding thanks to special production processes
- Seamlessly shaped, can be used with the entire tool surface for sanding

Art. no.	76021 055
Brand	PFERD
Manufacturer Part Number	4007220150863
Form	Cylindrical
Type description	ZYA
Material of abrasive medium	Normal corundum
Head diameter x head length	10 x 15 mm
Grid size	280
Colour	Red brown
Recommended rotation speed	20000 rpm
Number of pieces per packet	50 PCS
Gross Weight	0.001 kg
Product Group	6AB

EAN

4007220150863
