

CONSUMER UNIT ENCLOSURES

DME IP2X metal enclosures are suitable for use in domestic and similar installations covered by Amendment 3 regulations. They are manufactured from 1mm CR4 cold reduced mild steel, phosphate pre-treated and powder coated to RAL 9001. Cable knockouts are provided at 25mm and 20 mm top and bottom with large rear knockouts. The hinged metal flap has a magnetic fastener. Neutral and earth terminals are fitted along with din rail which accepts any of our modular devices. The DME 28 is configured in 2 rows of 14 modules each while the rest have a single row design.

Metal Enclosures

Dimensions	Modules	Reference
H204 x W165 x D105	6	DME 6
H204 x W254 x D105	10	DME 10
H204 x W307 x D105	14	DME 14
H204 x W396 x D105	18	DME 18
H204 x W510 x D105	24	DME 24
H400 x W307 x D105	28	DME 28
