

## Adjustable Clamping Levers · with clamping screw

24410.3153

### Product Description

Adjustable clamping levers find versatile applications when the area of use is confined or a specific lever position is required.

### Material

#### Lever

- Zinc die-cast, plastic coated, silver, similar to RAL 9006, matt structure

#### Inner parts

- Steel, blackened, quality 5.8

#### Screw

- Steel, blackened, quality 5.8

### Operation

**By lifting the lever** the serrations are disengaged. The lever can be positioned by the serrations. On releasing the lever, the serrations are automatically re-engaged.

### More information

### Notes

The screw part can be exchanged.

### References

The version with ball-headed (picture 3) can be combined with the thrust piece, plastic (EH 22570.).
