Version	Art.No.	EAN Code
 grey	025-0488	4009729042533

This device can process a maximum of 200 sheets (80 g/m²).

Tool with metal functional parts

The hole spacing on standardised perforators is 80 mm, except for variable machines.

4-hole perforation produces a hole spacing of 3 x 80 mm

Centring function provides perfectly centred precision punching whatever the paper size.

The hole diameter is 6 mm.

Securely engaging paper guide with easily legible format markings

Novus offers a warranty of 10 years when handled in a proper manner

The quality statement „German Engineering“ ensures that a product was developed according to German quality standards by our engineering experts. All Novus products carrying the „German Engineering by Novus“ signet are manufactured in our own plants around the world by our own workforce, managed and supervised by our headquarters in Germany.

This machine bears the GS approval of product safety.

Block perforators NOVUS B 2200

Two replacement discs and two cutting dies are included in delivery. The wear parts can be replaced without the need for tools and are available in trade for this purpose.

Thanks to the leverage the NOVUS B 2200 perforates up to 200 sheets of standard paper extremely smooth-running.

The 4-hole punching of a paper pad (up to 200 sheets 80g/qm) is very comfortable due to the new movable adjustment unit. Once inserted, there's no need to turn the paper any more - just reposition the adjustment unit.

Swivel guard for maximum safety for the user.

Block perforators NOVUS B 2200

With the two coupled positioning guides it is now possible to easily perforate every size from DIN A6 to DIN A4 centred.
