TE Connectivity

Product Change Notification: E-19-016902

PCN Date: 12-DEC-19

Customer: TTI, Inc. (1305175)

Location: Maisach-gernlinden

Agreement: TTI001

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

RZ Relay

Description of Changes

Cover fixing of RZ relays will be slightly changed by increasing the length of the case hot embossing (see picture below). This supports production process stabilization as well as fixation strength of the case on the relay base (this change is not valid for RZ reinforced flux proof versions, e.g. RZ Haz Loc, RZ socketable and RZ -R). Additionally TE is changing the datecode format at RZ relay from four digits YYWW (Year-Year-Week-Week) to six digits to improve the traceability of produced relays. New format will show YYWWDS (Year-Year-Week-Week-Day-Shift). Example given: 19452B means Year 2019, Calendar Week 45, Tuesday, 2nd shift of this day. For detailed information regarding the change please contact your sales representative or Field Application Engineer. All parameters and approved performance/ratings remain unchanged.

Reason for Changes:	
Product Improvement. Dear Customer, you are receiving this notice because TE Connectivity has record of you purchasing a part or multiple parts on the list below. These parts are affected by the change mentioned above!	
Estimated Dates:	
Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	11-FEB-2020
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	10-FEB-2021

Part Number(s) being Modified:
