

## Reflective tubes for endoscopes

ProSlim version

### Application:

Reflective tube is pushed onto the endoscope probe, enabling a change in viewing direction from 0° (straight view) to 90° (side view). Rotating the reflective tube radially by 360° also enables a view of the entire mirror within the opening angle.

### Execution:

- Viewing direction 90°
- 360° rotatable stainless steel tube
- Mirror in the form of a prism

<b>Art. no.</b>	<b>41451 128</b>
