

Internal precision measuring instrument

ATORN®

Application

For measuring bore diameters using the 2-point comparison measuring method.

Version

- Repeat limit 1 µm
- Fixed measuring pins and moving probe bolts made of hardened steel

Delivery

In wooden case (without precision pointer)

Art. No.	33518 035
Calibration Group	T
Min./max. diameter of measuring range	35-60 mm
Measuring depth	178 mm
Spindle material	Steel

EAN-Code

4050293159783
