Small case design adjustments

IN500-1K series

Geneva, 02nd September 2022

Based on the JEDEC Standard JESD46 standard (latest release), please kindly provide your approval for below change within 30 days.

Not for publication unless permission is granted by LEM

Dear customer,

To answer to continuous market requirement for improved performances, and in a permanent effort to improve the quality of its products, LEM intends to proceed to some modification on **IN500-1K series**.

Concerned products:

IN 1000-S; IN 1000-S/SP1; IN 1000-S/SP2;

IN 1200-S;

IN 500-S; IN 500-S/SP1;

Change:

➤ ***Description of the technical change:***

Small case design adjustments as follows (current version vs new version) -> see next page

➤ **Reason of the technical change:**

Assembly process improvement and more sustainable way to indicate the current direction (narrow).

Impact on the product:

- On the form: YES, the narrow for the current direction indication is now part of the case (part of the case mould)
- On the fit: NO
- On the function: NO
- On the reliability: NO
- On the data sheet: NO
- On the process: NO
- On the quality: NO

Life Energy Motion

Schedule of the modification:

Start of delivery of modified product	Beginning November 2022
---------------------------------------	--------------------------------

Customer feedback:

To ensure a smooth change, and in order to answer to any of your requirements issued by this change, please fill in the **Customer Return Sheet** (Annex 1 on page 4) and send it back to us **following 30 days at the latest.**

In case we do not receive any answer **following 30 days at the latest**, we will assume:

- Your acceptance to the change.
- No need for samples
- No additional need.

Please return the Customer Return Sheet to:

LEM

Mail to:

After customer acknowledgement, lack of additional customer response within the time defined until the change implementation constitutes acceptance of the change by the customer.

Sincerely yours,

Stéphane ROLLIER
